### CRANBERRY CULTURE.

The following article upon the subject of the culture of cranberries in New Jersey, which appeared in the *Trenton Gazette*, is well worth the careful perusal and earnest thought of our local readers. There is, perhaps, no place in the world, certainly no place in this part of it, presenting greater facilities for the business referred to than the District of New Westminster. With a climate everywhere adapted to bringing the cranberry to the greatest perfection; with an abundance of precisely the right kind of land for its production, and with lumber and other ships leaving nearly every week; for almost all parts of the world, thereby presenting the most favorable opportunities for sending the produce to the best markets, this District possesses advantages for the profitable and successful cultivation of the cranberry, probably superior to those of any other place. It will be observed that in the following article cranberries are calculated at \$5 per bushel. We are informed that the common cranberry of this district sells readily at the rate of \$10 a bushel in San Francisco, a market very near to us. If the common, uncultivated cranberry commands \$10 a bushel it is clear that the cultivated article would bring a still higher price; for the difference would be scarcely less than that between the cultivated apple and the wild crab. It does appear to us that the business might be carried on here to very great advantage. Comparatively little capital would be necessary, while a small cranberry farm of, say, five acres would probably net considerably more than five thousand dollars a year, after the first or second year:—

"The savanna and bottom, or boggy land of New Jersey, lying in Ocean, Burlington, Atlantic, Camden, and Cape May counties, are the best known for the culture of the cranberry. The lands used for its culture are the soft, spongy lands, known as swamp and savanna lands. Before the introduction of cranberry culture, they were comparatively valueless. Now they range in price from \$25 to \$100 per acre.

"Those lands having a running stream of water are the most valuable, as it is of importance to be able to flood the grounds during late fall and winter in order to kill grass and vermin, and to protect the vines from frost. In dry summers it is necessary, in order to preserve the moisture without flooding the land, to fill the lateral ditches with water. This will moisten the ground sufficiently. To flood the bogs in summer will involve the sending of the vines. To prepare for the vines, the tree and bush are removed, the land furrowed, and the roots grubbed out. Lateral ditches are dug from the main stream, dividing the ground into square plots, and the plot sufficiently raised at the center to cause the rains to flow off.

The yield of berries is astonishing. A bog of a few acres, which had not received a particle of care since the vines were planted, yielded this year 100 bushels to the acre. Another of six acres belonging to Mr. William Allen, which yields this year its first full crop, produces about 200 bushels to the acre. These figures seem astonishing, but one has only to see a bog and notice the perfect mass of fruit to have all doubts removed. The cranberry crop of a single township in Ocean County, will reach this year 10,000 bushels, and that of the county is estimated at 25,000 bushels. The value of these lands when vines are something remarkable. The Messrs.

Gowdy have refused \$1,250 per acre, cash, for a bog the vines of which are two and three years old.

As soon as the bogs are in vines, they are valued at \$700 and \$1000 per acre; \$1000 per acre has been repeatedly refused for bogs which have been in vines two or three years. The reason for this is obvious. The lowest estimate for a full-bearing bog is 100 bushels per acre. The average is from 50 to 100 bushels above this. Take 100 bushels for an average yield. The cost of picking is 50 cents per bushel. The cost of cultivating, after the second year, will not average \$5 per acre. The present wholesale price of cranberries is \$5 a bushel, or a net yield of \$450 per acre, at the lowest possible estimate per year; or an interest of 45 per cent. per year on an estimated value of \$1000 per acre.

But the average is above this. The yield when the vines are three years old, and for a long series of years, will almost certainly reach 150 bushels per acre. The cranberry is not like strawberries, peaches, &c., perishable fruit, but can easily be kept for a year. In the spring the price often reaches \$10 per bushel. Take these figures, and you have a return of say \$1400 net per acre per year.

It is not possible that the market can ever be glutted with this fruit. The small area which can be employed in its culture, and the fact that the European market has been opened to its sale, and that the berries are now used for dyeing purposes, forbids the thought that they can fail to command a good price continually. But there is a wide margin for falling off in price, and large returns are yet secured.

Mosquitoes.—Let us inquire about the earliest beginning of the mosquito; let us take him in the egg. The mother mosquito has notions of naval architecture, and out of the eggs she lays she constructs a well modelled boat, with elevated prow and stern and well proportioned midship. For the boat she employs 250 to 350 eggs, building it up peacefully, somewhat after the manner of men, binding together the individual eggs by means of a powerful water-proof cement, in a substantial and complete structure. Unfortunately we are unable to give a recipe for the water-proof cement; there are many who would like to have it. The boat is built on the water, and, when completed, she is confidently abandoned to the mercy of the wind and the wave. Thanks to that water-proof cement, she can neither be broken, rotted, nor sunk; she is safer than if she were copper bottomed. The little craft, it must be remembered, is freighted with life—each of its 250 or 350 State-rooms has its tenant. After a few days' cruising the occupants of the shells come forth, and the ship is destroyed. But those little creatures are surely not mosquitoes! They appear more like fish, or serpents, or little dragons. On closer examination, they prove to be what everyone knows under the name of "wigglers;" they are the larvæ of the mosquito. They wiggle about in the well known way for a week or two, and, after changing their skins two or three times, they assume quite a new form and movement. They are now what the boys call "tumblers," and are the pupæ of the mosquito. In about a week, if the weather, &c., be favorable, something of the form of a mosquito may be seen through the transparent skin of the tumbler. Shortly the prisoner escapes from his confinement as a full-fledged and bold mosquito, and soars away in search of food and pleasure.

#### ST-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather, and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease." Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all the machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to delay and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only supply and plant the seeds of disease and death.

### Important Certificates.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."  
Rev. W. H. Watson, Madrid, N. Y.

"I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."  
G. W. D. Andrews,  
Superintendent Soldiers Home, Cincinnati, O.

The Plantation Bitters make the weak strong, the languid brilliant, and are esteemed Nature's great restorer. The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the face of our signature, and a steel plate engraving, or if not be genuine.

Any person pretending to sell PLANTATION BITTERS in bulk or by the gallon, is a swindler and impostor. Beware of re-filled bottles. See that our Private Stamp is UNREMOVED over every cork.

Sold by all Druggists, Grocers and Dealers throughout the world.

### FEARS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the insect species—Fleas, Roaches, Mosquitoes, &c., &c.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It has the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use. Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DENNIS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

### MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAK JOINTS, BRUISES, SWELLINGS, SORE THROAT, EARACHE, FRESH CUTS OR WOUNDS, SWELLINGS.

Or any other complaints requiring external application.

FOR HORSES.

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of E. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DENNIS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores in every town and mining camp on the Pacific Coast.

**ROADS AND BRIDGES.**

The Yale Examiner of Monday contained a leading article and two communications devoted to the subject of the roads and bridges of the great interior. It is asserted that in many places above Yale, and especially above Lytton, the roads are sadly out of repair, and the bridges falling into decay, so much so as to endanger life and property, and threaten the suspension of traffic. This is, indeed, a most serious matter, one which the Government cannot blink, even if it would; for, let communication with the great fields of consumption and production be interrupted, and the "Supplies" will be more effectually stopped than could be done by a vote of the Legislature, even if it were possible to secure an official vote for that purpose. That these complaints and warnings were fully justified by fact, the corroborative testimony of all recent arrivals from the interior sufficiently proves. Let the Government take timely warning and adopt active measures for averting serious mischief. It will not do in this instance to urge as an excuse for inaction the financial circumstances of the colony. If the demands upon the Treasury in support of the Civil List, for the diversion of a few thousands into the bye-channel of public works, a few supernumeraries must be lopped off, however loath the Governor may be "to deceive legitimate expectations and to reduce, without absolute necessity, respectable public officers to poverty." It is much better that a few should be spared now than that the whole revenue of the colony should be absorbed by officials, and the great avenues of wealth allowed to become obstructed, and the channels of revenue completely dried up. It is scarcely reasonable to expect that the producing classes in the interior will quietly witness the great arterial highway of the country falling into ruin and decay for the mere want of revenue to maintain it, while, at the same time, highly-paid officials are permitted to lounge away months of absolute idleness, if not debauchery, many miles from their post of duty! We do not allude to such subjects as these either in anger or malice, but, rather in sorrow. We have seen the Government during these two years, resisting every effort at abolishing or even reducing the Road Tolls. Are we to be called upon to witness the very roads in respect of which such heavy tolls are collected, becoming impassable, and the very money which ought, in all decency, to be employed in keeping them in a thorough and efficient state of repair, gobbled up by a hoard of overpaid and underworked officials? Is this Colony really to be compelled to support an admittedly excessive Civil List, simply because the everlasting "Colonial Regulations" are adverse to the dismissal of men who "have been in the service," unless provided for by a retiring pension? and is this theory to be maintained even at the sacrifice of the most vital interests of the country? If the "Colonial Regulations" absolutely forbid the reduction of the expense of the Government to a point consistent with the means and wants of the country; if they prevent us from managing our affairs with due regard to economy and common sense, it is clear that we must obtain relief from those "Regulations" as speedily as possible.

We cannot do better than conclude with the following extract from the *Cariboo Sentinel*, upon the same subject, which came to hand after the

above was in type:—"The ruinous extravagance and wasteful expenditure of the public money of this colony can only be matched by contrast in the culpable neglect of the Government in allowing the great road to Cariboo to become so impaired as to make travelling for freighted trains almost impossible. An empty treasury is no excuse for allowing this road, the only beneficial public work in the colony, to remain unrepaired, whilst the useless staff of officials which have been saddled upon the revenue are drawing their extravagant allowance therefrom; or, at least, if this excuse be urged, let the high paid official whose duty it is to attend to the repair of the roads, be relieved from an office which at present is a mere sinecure."

**THE CUTTING APPRAISAL AND ITS CONSEQUENCES.**

We mentioned last week that a man named Smith had been dangerously wounded with a knife in the hands of a young man named Alikj, in an affray on board the ship *Sidon*, loading at Moody's mills. A special Assize was held in this city on Wednesday to try Alikj. The Grand Jury found a true bill for wilful murder, and a petit jury being impaneled, the man was put upon his trial. We may here mention that the man Smith died on Wednesday morning, in the Hospital. The trial lasted the greater part of the day, the jury retiring about 5 o'clock. At 1 o'clock in the morning they were discharged, there being no prospect of agreeing upon a verdict. It is understood that ten were for acquittal and two for a verdict of manslaughter. On Thursday, another jury having been impaneled, the case was gone into *de novo*. The jury retired and in about ten minutes returned a verdict of guilty of manslaughter, and the prisoner was sentenced to seven years penal servitude! We must confess that, under all the circumstances, we consider the sentence somewhat severe. Had the prisoner been provided with Counsel, as he should have been, there is every probability that he would have fared very differently. It does appear too bad that people should be placed on trial for life and left without any legal advice or assistance whatever; and especially is it bad when, as in this instance, the prisoner happens to be a stranger both to our language and our laws.

**FOREST FIRES.**—The forests north of this city were all ablaze on Wednesday and Thursday, and it was feared that the valuable timber lands on Burrard Inlet would fall a prey to the devouring element; it is thought now, however, that the fire may not extend over in that direction. Some law for preventing the reckless and unnecessary starting of fires in the woods at this season of the year would appear to be demanded. It would be difficult to estimate the amount of damage that might result from a fire in the woods during the dry season. Not only valuable forests, but mills and all might be destroyed.

**ARRIVAL OF THE "SPARROWHAWK."**—H.M.S. Sparrowhawk arrived from Esquimalt on Thursday, and came to anchor opposite the Camp, where she now lies. We understand the Sparrowhawk has come up for the purpose of conveying the Governor to Victoria; but we are not aware as to when she will sail. Captain Cooper brought the ship up; and to him we are indebted for newspaper favours.

**PRISON RETURNS.**—We are indebted to the politeness of C. J. Prichard, Esq., Governor of the Jail, for the following Prison Abstract for the month of April 1868:—In Jail on the 1st of the month, 17; received during the month, 13; discharged during the month, 13; in Jail on the 30th of the month, 17.

**TO WHOM IT MAY CONCERN.**—We have been requested to state that the Municipal Council will meet on Monday evening at 8 o'clock; and as matters of grave importance will be brought up for consideration, it is most desirable that every member should be present.

**New Advertisements.****QUEEN'S BIRTHDAY CELEBRATION.**

To Henry Holbrook, Esq., President of the Municipal Council of New Westminster.

Sir,—We whose names are hereto annexed, request that you will call a Public Meeting at as early a day as possible, for the purpose of forming a Committee to take in hand and make the proper and every arrangements for the celebration of the Queen's Birthday.

J. S. CLUTE, A. B. GRAY, R. DICKINSON, W. JOHNSON, G. C. CLARKSON, D. WITHEROW, W. R. HOOPER, R. SEABROOK, W. FISHER, A. W. S. BLACK, H. V. EDMONDS.

In compliance with the above requisition, I hereby appoint said Meeting to be held at the Hyack Hall, on Saturday evening, the 16th inst. at 8 o'clock.

H. HOLBROOK,  
President Municipal Council.

New Westminster, May 14th, 1868.

**NOTICE.**

THE HON. JOHN ROSSON will be happy to meet his constituents of the Sumas and Chilliwack settlements at Mr. Wells, on Thursday, 21st inst., at One o'clock, p.m., for the purpose of stating to them his reasons for the course he has taken in the past, and of explaining the measures which he proposes to advance in the future. Meetings of a like character will also be held at Langley, Burrard Inlet, and in this City at an early day, of which further notice will be given.

GEO. C. CLARKSON,  
Secretary of the Committee appointed by the Meeting held last Monday evening, May 12.

**New Advertisements.****AYER'S MEDICINES.**

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

**Ayer's Sarsaparilla** is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

**AYER'S CHERRY PECTORAL.**  
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

## The British Columbian.

SATURDAY, MAY 16, 1868.

## THE REBEL PRESIDENT AT NEW ORLEANS.

The New Orleans *Republican* of March 5th gives an account of the reception extended to Jefferson Davis, upon the occasion of his visit to that city. On the 4th of March the fire companies had a general parade and procession, which was described as the most splendid and imposing affair of the kind ever witnessed. They formed in line in front of the St. Charles hotel, and cheered right lustily for its distinguished occupant, the ex-President of the Confederate States. Jefferson Davis came out on the balcony, one company after another passing before him, rendering the air with enthusiastic and oft-repeated cheers. "President Davis," says the *Republican*, "addressed his friends, not in words, for the crowd was too great, and perhaps the time was not auspicious, but by placing his hand upon his heart and making repeated bows. Again and again he was called out upon the balcony, and again and again he bowed, showing that between him and those who had assembled to do him honor there was still the most cordial sympathy." "During the afternoon," continues the same paper, "our streets resounded with the music of 'Dixie' and the 'Bonnie Blue Flag' and were disgraced by curses loud and long against the Congress of the United States and praises of Andrew Johnson. After several of the companies had sufficiently honored Jefferson Davis, they passed on to Gen. Hancock's headquarters, took off their hats, and cheered for Andrew Johnson and Gen. Hancock." The *Republican* indignantly asks, "Was it for this that Andrew Johnson sent Major General Hancock to this military district? It would seem so." Indignation under such circumstances is very natural; but it must be remembered that the cards have been shuffled and re-dealt since Jefferson Davis was President. How many have changed place since then? Who's rebel now?

## FROM CARIBOO.

The str. Reliance, Capt. Irving, arrived from Yale yesterday, bringing a number of passengers, amongst whom we observed Mr. T. E. Ladner, of this city, and Mr. Cornwall, of Ashcroft. Barnard's Cariboo Express came down by the Reliance, placing us in possession of the Cariboo Sentinel of the 5th inst., from which we glean the following summary of mining and other news.

## MINING INTELLIGENCE.

Perhaps at no period in the history of Cariboo has there been so satisfactory a feeling in regard to the mining prospects as is felt at the present moment. From the outlying creeks and gulches in every quarter comes daily the gratifying intelligence of good prospects and good indications.

## WILLIAMS CREEK.

There were 16 companies in active operation; before the end of the month there would be about 45. Of those at work the Bald Head, Cariboo, Lilloet and Baby were paying well, while in the Lemoore and the Forest Rose good prospects had been struck. The Lemoore got \$10 to the pan!

In McCallum's Gulch two claims have been paying well all the winter. In Stout's Gulch several companies were at work. The Tatavale washed up for three days' work, 90oz. In Conklin's, McArthur's and Wilson's Gulches a great deal of work was being done, and in most instances prospects were encouraging.

## MOSQUITO GULCH.

The Minihaha claim employs forty men, and continues to yield largely. The Willow also continues to maintain its reputation, washing about 18 oz. a day. The Hoeking Co. bottomed their new shaft and got a good prospect. The Holman co. had bottomed their new shaft, and were getting good pay.

On Red Gulch the Discovery co. were taking out good pay—160 oz. for the week. On the 2d the Tom and Jerry washed up 7 oz. from one set of timbers.

## CANADIAN CREEK.

There are about a dozen companies on this creek, eight of which are working. The New Dominion (the Discovery co.) consists of eight interests. The pay dirt is thirty feet wide and six feet deep. In the Clear Grit co.'s ground, \$10 to the bucket of dirt was obtained!

## GROUSE CREEK.

There were eight companies at work, five of which were taking out pay. The whole number of claims on the creek is 23.

## NELSON CREEK.

Five companies at work. This creek is expected to do well this season.

## LIGHTNING CREEK.

The Fifeshire Lass has been taking out pay all winter. A good deal of activity is exhibited and prospects are good.

From the numerous creeks and gulches of lesser note the news is very encouraging.

## MISCELLANEOUS.

Mr. T. E. Ladner's Train, the first of the season, arrived at Williams Creek on the 3d. There were only three patients in the Hospital. On the 1st inst. four inches of snow fell. Centreville, on Mosquito Gulch, has over 100 dwellings, erected at a cost of at least \$100,000. There are a dozen saloons in full blast, some of them upon a magnificent scale.

The human family is so numerous that a birth and a death occur every moment. Every second a child is born; every second some one dies. The prevalence of sickness in the world may be realized in Dr. J. C. Ayer's Laboratory, where medicines are made for all mankind. It would scarcely seem that there are throats enough to swallow the doses he issues daily. Ayer's Sarsaparilla, Ague Cure, and Cherry Pectoral by the thousand gallons, and Ayer's Pills literally by the ton. But they must all be wanted, or he could not make such quantities for so many years.—Northfield Telegraph.

MORE ULAHANS.—We have just had evidence of an eminently practical character (a liberal sample of the delicious little fish laid on our table) that Professor Frederick De Freuchy, although enjoying a very aristocratic name, does not enjoy an absolute monopoly of smoked Ulahans. Mr. Jas. Syme, whose establishment stands on the opposite bank of the river, and who has embarked in the fish curing business, in all its branches, and with great energy and much system, appears to have been particularly successful in the article of dried and smoked Ulahans.

SERIOUS ACCIDENT AT STAMP'S MILL. We learn that on Wednesday last the wharf at Stamp's mill, Burrard Inlet, broke down and was carried off with the tide. There was some 300,000 feet of lumber upon it at the time. The loss will be very heavy.

RETURN MATCH.—The return match between the Married and Single will be played this afternoon, wickets to be pitched at 1:30 o'clock.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria last evening, with freight and passengers.

## TELEGRAPHIC SUMMARY.

## EASTERN STATES.

The news is to the 13th and indicates a dark and threatening political sky. The latest political game involves the removal of President Johnson and the arrest and trial of Gen. Lee, upon the double charge of treason and murder. The plot is said to have been concocted by Butler and Stevens. It is to be backed by Wade and other Republicans with a view to defeating Grant's election to the Presidential Chair. It is believed that Grant, viewing such a proceeding in the light of a gross violation of the terms of parole, will resent the action as a personal insult. There is great speculation and much betting as to the result of the impeachment trial. The excitement at Washington is represented as most intense. The Senate remained in secret session on the 11th until midnight, during which the excitement outside was tremendous, and the condition of affairs was discussed in political circles in terms neither cool nor polite. Fessenden, from Maine, made a lengthy speech during the afternoon session, in opposition to impeachment. He went over the whole ground with much fullness, declaring against every article. The Senate generally conceded that the case against the President began to look doubtful. Wade and Wilson said there did not appear to be much chance for conviction. The vote was postponed till Saturday (today). The New York *Tribune* of 13th, stated that according to confidential dispatches received by the editors it was doubtful whether the Senate would convict. A leading friend of Johnson's considers the chances about even. The friends of Secretary McCulloch state that there has been an open rupture between him and the President, and that he will resign so soon as the vote is taken, whether the President is convicted or not. Senator Wade has announced his determination that, if necessary in order to secure conviction, he will resign his position as President of the Senate to cast his vote! The feeling against Senators Fessenden and Trumbull, for taking a stand against impeachment, is said to be very strong. The latter was hissed on the streets, on his way from the House. A Maine delegation in the Lower House held a meeting and decided to wait upon Fessenden and demand that he should vote in accordance with the expressed wishes of his State or resign. Illinois members went in a body, on the morning of the 12th, and made a similar demand upon Trumbull. Bills were reported from the reconstruction Committee, for the admission of North Carolina, South Carolina, Louisiana, and Alabama to representation in the Republican Congress. The constitutions have been adopted in North and South Carolina, Georgia and Louisiana.

## EUROPE.

The news is to the 12th inst. Considerable excitement was caused on the 11th, by the reception in London of telegrams from Ashton announcing breaking out of serious anti-popery riots in that city. The mob paraded the streets, sacking houses and outraging the people. Several persons were shot. At last accounts the riot had been suppressed and the city was quiet. In the House of Commons on the 12th, the reply of the Queen to a petition of the House based on Gladstone's third resolution, was announced. The Queen says she desires her interest in the temporalities of the Irish Church will not in any way hinder parliamentary legislation on that subject. Gladstone would, on the 13th, bring in a Bill to suspend for the present making additional appointments in the Irish Church. London papers of 1st inst. announce that by the Clerkewell explosion, six persons were killed outright and six more died from its effects, five more owe their deaths indirectly to it. One young man is in the mad house, and forty mothers were prematurely confined and twenty of their children died, many of the children are dwarfed, one mother is a raving maniac, twelve persons were wounded and fifty went into the hospital permanently injured. Besides this, £20,000 worth of damage was done to property. Constantinople advises that the Sultan opened his new Council on the 11th. In his speech he remarked in regard to liberalism that the time had come, when Turkish manners must yield to European civilization.

## LATER.

The funeral of Lord Brougham took place on the 13th, at Cannes. The Queen laid the corner stone of St. Thomas' Hospital on the 13th, in presence of a vast multitude. The Corporation of London, on the same day presented an address to the Queen, declaring profound sympathy on account of the attempt upon the life of Prince Alfred. In the House of Commons, Gladstone moved a Bill to suspend appointments in the Irish Church for a specified period.

## CANADA.

MONTREAL, May 14.—A man named Duggan, a saloon keeper, and two accomplices, were arrested yesterday, charged with being implicated in a plot to assassinate McGee. One of the witnesses testified to being present

at Duggan's house last December when the conspiracy was organized. Twelve American and twelve Canadian Fenians were present. He testified that Whalan was present and selected to do the murder. He then went by the name of Smith.

## MEXICO.

HAVANA, May 7.—Passengers from Vera Cruz of the 2d, announce a revolution having taken place in the Capital, and President Juarez flying to the Texan frontier with seven millions in his possession.

## OREGON.

PORTLAND, May 12.—A telegraph office has been opened at the Cascades. The line will be completed to the Dalles by 1st June, and probably continued on to Idaho.

## DIED.

At the Royal Columbian Hospital, on the 13th inst., Charles Smith, a native of Finland, aged 54 years.

At the Royal Columbian Hospital, on the 13th inst., James Nabua, aged 51 years.

HOLLOWAY'S OINTMENT AND PILLS.—Bad Legs—Any unsightly discharge from the skin is at all times disagreeable, but in hot weather it becomes irritating—sometimes offensive. Bad legs, old wounds, scrofula, and scurvy eruptions are cooled, soothed, and cured by Holloway's Ointment. It at once arrests all diseases of the surface by purifying and regulating the circulation in their neighborhood, by giving energy to the nerves of the affected part, and by expelling all poisonous and noxious matters. It ejects the seeds of all virulent eruptions and ulcerations, and thus confers no partial or temporary boon, but a complete and permanent cure. Sufferers of these remedies may aim at attaining health, and will invariably succeed.

## ALL OVER

The world people of sense and judgment have learned to use

## PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Fervent Lips, Bad Breath, Sallow Complexion, &amp;c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects. The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overindulged and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PURSUEANS ARE COMPELLED TO RECOGNIZE IT.  
CASABLANCA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fever, Weakness, Constipation, &c.

CASABLANCA BARK.—For Diarrhoea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Lungs and Dropsical Affections.

GRAMMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &amp;c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, make-root, &amp;c.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure, and without injury to the stomach.

Notice.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our glass bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States map over the cork unimpaired, and our signature on steel plate side label. Sold by respectable dealers throughout the habitable globe.

P. H. Drake &amp; Co., New York, Sole Proprietors.

Redington &amp; Co., San Francisco. Agents for California and Nevada.

## MEXICAN MUSTANG LINIMENT.

The Mustang Liniment is well known. Its effects are instantaneous, soothing, and agreeable.

Cuts, bruises, sprains and swellings, as common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor's advice, and saves time in sending for the doctor—It is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.  
"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scalds, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic."  
J. W. HAWLEY,  
Foreman for Amer'n Wells, Fargo & Harnden's Express."The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment."  
Ed. SEELY,  
Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate envelopes, bearing the signature of Dr. W. Webster, Chemist, and the PRIVATE U. S. Stamp of DEAS BARNES &amp; Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores, @ 25 &amp; 50cts, and \$1.

## LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magentic Powder will perfectly destroy everything in the shape of fleas, ticks, botflies, roaches, &amp;c.; that it is perfectly poisonless to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedding, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

John L. Kutz, Esq., Superintendent of the New York City Hospital, writes: "It is the only SURE article we have ever used."  
NEW YORK HOTEL PROPRIETORS say: "We have usedLYON'S MAGNETIC POWDER for exterminating insects and vermin, with entire satisfaction."  
COLEMAN & STEVENSON, Astor House.  
S. T. COZZENS, American Hotel.  
S. T. COZZENS, American Hotel.  
S. T. COZZENS, American Hotel.

Testimony of this character might be added to any length. Whenever it is used it advertises itself.

The genuine has the signature of Dr. E. LYON, and the private stamp of DEAS BARNES &amp; Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist, you will have no other.

Sold by all druggists and general stockholders in every town and mining camp on the Pacific Coast.

## IN BANKRUPTCY.

In the Supreme Court of Civil Justice of British Columbia.

WHEREAS a petition for adjudication of Bankruptcy, bearing date the third day of April, A. D. 1868, hath been duly filed against WILLIAM HENRY LADNER, formerly of French Creek, Big Bend, now of New Westminster, British Columbia, Dealer and Chapman, and he having been declared a bankrupt, is required to surrender himself to the Honorable Matthew Baillie Begbie, one of Her Majesty's Commissioners of the Court of Bankruptcy, on Monday, the 13th day of April, and on Monday, the 4th day of May next, respectively, at 1 o'clock p. m., at the Court House, New Westminster, and make a full discovery and disclosure of his estate and effects, when and where the Creditors are to come prepared to prove their debts, and at the first sitting to choose Assignees, and at the last sitting the Bankrupt is required to finish his examination.

All persons indebted to the said Bankrupt, or that have any of his effects are not to pay or deliver the same but to Charles Edward Pooley, the Official Assignee, whom the said Commissioner has appointed.

CHAS. E. POOLEY,  
Official Assignee.  
New West., 3d April, 1869. ap8tc
